SUMMARY OF CONCLUSIONS AND AGREEMENT REACHED ON CADROIT COOPERATION  
WITH BOB SSD PROGRAM, 7 AUGUST 1953.

1. CADRAIN case officers agree to the necessity of having a definitive chain of command within CADROIT, with particular emphasis upon the authority and function vested in CARBOHYDRATE. In particular, the following steps will be undertaken:

a.) All section chiefs will be told to instruct members of their sections who interview visitors of all sorts and types, that these visitors are to be queried on their knowledge of the SSD, i.e., individuals, addresses, safe houses, etc. This will be the standard operating procedure followed by all interviewers in CADROIT. It is to be stressed that the interviewers themselves are not expected to debrief these visitors on their SSD knowledgeability, their sole function is to spot these individuals and channel them to CARBOHYDRATE.

b.) All necessary steps will be taken by [ ], CADROIT case officer, to ensure that the above requirements are properly carried out.

2. It was agreed that CADROIT would inaugurate a series of letters directed to SSD functionaries with the express purpose of inducing these individuals to defect and, including in this letter, a statement requesting the addressee to turn themselves in to CADROIT. The
